

# Jatin Ramani

Software Engineer | Frontend Developer

I am a React developer with a passion for creating responsive, user-centric web applications. With experience in building dynamic interfaces and optimizing performance, I focus on delivering high-quality, scalable solutions. I am always eager to learn new technologies and contribute to impactful projects.

## WORK EXPERIENCE

### Software Engineer | React Developer Dvij Infotech

04/2024 - Present

Ahmedabad

Dvij Infotech is a subsidiary of ThePlanetSoft. We are building Web & Mobile applications for clients across the world.

## PERSONAL PROJECTS

### Agriculture Marketing (06/2023 - 10/2023)

- A PHP project designed to display the current prices of various crops. This platform aims to help farmers and buyers stay informed about market rates.

### Personal Portfolio Project (05/2024 - 05/2024)

- A React-based project showcasing your professional skills, experiences, and projects. It serves as a dynamic and interactive online resume to highlight your personal brand.
- <https://portfolio-zeta-olive-83.vercel.app>

### Finance Insight (07/2024 - 08/2024)

- An expense tracker made with React, TypeScript, and Firebase, designed to help users manage and monitor their finances effectively. It provides detailed insights into income and expenses for better financial planning.
- <https://finance-insight-psi.vercel.app>

### Task - Manager

- A React TypeScript application designed to efficiently manage and organize tasks, leveraging TypeScript for type safety and React for dynamic UI components.
- <https://new-task-weld.vercel.app>

### Background Remover

- A React application with a Python-powered backend that performs advanced image modifications, enabling users to remove backgrounds from uploaded images with ease and precision.
- <https://removebackground-iota.vercel.app/>

### Nexura - an e-commerce website

- A React-based e-commerce platform for shoes, integrated with Firebase for real-time data management and secure user authentication, offering a seamless shopping experience.
- <https://nexura-nine.vercel.app/>

### N-pro Dashboard

- A React-based dashboard application designed for intuitive data visualization and efficient management of operations, tailored for professional use cases.
